INTELLIGENCE MEMORANDUM

The India-Pakistan Situation  
(Report #100 - As of 6:00 A.M. EDT)

1. According to an official Pakistani communique the Indians attacked Pakistani posts in Kashmir "in their usual treacherous manner" yesterday. The Indian press reports further Pakistani cease-fire violations, including overflights of Indian territory.

2. Indian Defense Minister Chavan on 4 October alleged that the US and UK were in partnership with the "Pakistani dictatorship" against "Indian democracy." Speaking at a rally before a crowd of 60,000 people, Chavan said that because of this alignment there can be no substitute for Indian self-reliance. This statement and similar remarks by Prime Minister Shastri and Congress Party leader Kamaraj in the past few days indicate a growing resentment against the US for not giving the Indians the support they think they deserve.
